Editor-in-Chief & Page Design - Hatice Güngör

This issue was the most difficult to finish ever. I had covid for the second time, a lot of our writers were in quarantine and the school was empty and quiet this month. This is actually something we, teachers, long for all the time, but I think we didn't imagine it like this.

We all experienced this semester as a struggle, often in a roller coaster of being in and out of school. It was hard for all of us, however we pulled it through somehow again. We are at the last quarter of this covid match and spring is about to arrive soon. In a lot of countries they have started to stop the restrictions and gone back to normal. Will we ever be able to see these days, too? Will we survive one more year with this new "normal"? I think we, people, have the same questions and worries all around the world.

Well, based on the historical proof, it is possible to say we will find a way out. The kids who were born three years ago have grown up in a world where there are restrictions, applications and square codes on our phones as a part of daily life.

So, as a last word, hang on there team!!

Hatice Güngör

FRIENDS; WHY DO WE NEED THEM?

Kristýna HLÔŠKOVÁ

I like my friends and I think that we have a very good relationship. Friends are important in my life and I think I need them. We often go out together, talk and help each other with our lessons. We share personal things because we trust each other. They are very funny. I have fun with them. We have the same interests and we also understand each other. I would not change anything about my friends because they are perfect for me.

Jaroslav CHUMLEN

My friends are so important to me because they help me when I'm sad or in the mood. I need my friends because I like them. I play video games with my friends every day or go outside. They are changing me because if I didn't have friends I'd be too sad. I share personal and private things with my friend. I stopped being friends with one of them because he ignored my messages and calls. I like my friends and I don't want to lose them.

Luboš ULRICH

They are important to me because they are people that I spend most of my time with. I need them because I don't want to be alone. I like people around me. I play games with them, I go out with them, and I spend time with them in school. They didn't change me. I don't share private things with them. I wouldn't change anything about them.

LANGEROVÁ Adéla

In my life, friends are very important. I spend a lot of time with my friends outside or I chat with them. I feel good when I'm around them. We laugh and enjoy our free time. We can talk about everything, we can do everything together and I like it. If I did not have friends, my life would be full of sadness or I don't know what else. I can't imagine my life without my friends. It is very sad if someone does not have any friends. I don't share private things with my friends or my family because I don't share them with anybody. They are my things and I don't want to share them. I don't know why but I am not a sharing person. I don't want to change anything about my friends, because I like them for what they are.

Stanislav TESAŘ

My friends are important in my life. I need friends in my life because I'm happier with them. I spend time with my friends a lot in school and in video games. They make me happier and add good things to my personality. I sometimes share private things with my friends. I don't want to change things with my friends.

Ema PONOCNÁ

Friends are very important in my life because if you feel sad, they will help you and if you feel happy, you share it with someone. Of course, you will meet fake friends but you don't

need people like that in your life. I like to hang out with my friends, talk, watch movies together and just make memories. Friends are changing you in some ways too. For example, they tell you they like a band, you listen to their songs and you start to listen to the same thing.

Lukáš OROLÍN

My friends are very important in my life. I need my friends. In my free time I go out with my friends outside and do things we like. My friends and I have fun.

fashion winter

Antonie ŠOLCOVÁ
Klára KVAČKOVÁ

In winter 2022 there are lots of fashion trends

BOTTOMS - JEANS ARE BOSE, BUT IF YOU WANT TO SPICE IT UP, FLARED LEGGINGS ARE A GREAT OPTION.

PUFFER JACKETS - EVERYONE NEEDS A PUFFER JACKET IN THEIR CLOSET (OF COURSE WE OWN ONE). AND IF IT'S BROWN, CROPPED, FROM THE NORTH FACE IT'S PERFECT!

SHOES - OUR FAVOURITES ARE NIKE SHOES, FOR EXAMPLE AIR FORCE 1 OR JORDANS (WE HAVE BOTH)

ACCESSORIES - EVERY OUTFIT NEEDS A WARM HAT. WE DON'T SUPPORT SCARFS, BUT EVERYONE CAN WEAR WHAT THEY WANT, IN OUR OPINION A NECKLACE AROUND YOUR NECK IS WAY BETTER.

How to draw fish

Emma Filipi

1. DRAW ORANGE BUBBLES IN THE SHAPE OF A FISH. AND AROUND THE BLUE LIKE WATER. AND YOU CAN COLOR.

2. MAKE A SHADOW ON EACH BUBBLE.

3. LET'S MAKE A FISH OUTLINE, FINISH OUR EYES AND WE'RE DONE.

ABOUT DOGS

Stella Malátová

Dogs are very intelligent animals. The most iteligent breeds are: Border Collie, Australian Shepperd, and Poodle. And these are breeds what learn fast: Italian Greyhound, Gold Retriever, Labradore Retriever, and Sheltie (there are a lot of them,but I wrote only the famous ones).

They are cute, but some breeds are very dangerous. Dangerous breads are: Pitbull, Doberman, Czechoslovakian Wolfhound.

You can adopt a dog, or buy it. I am prefering adopting, because you are making good thing and dogs have more happier life.

You need to reguarly go to vet, to keep your dog safe. They control if it's your dog healthy, when is something bad, they will give you medicine. The most famous diseases are: Rabies and Hepatitis. They are vaccinable.

Dogs need to have activity every day. You can go on walks with him, fetch with him, or go on trip with him.

If you want to teach your dog some tricks, I am prefering youtube (if you have time, you can go on summer camps with your dog). So many people are making dog dances and agility, where you can win some trophy.

You can also buy to your dog some toys, snacks and balls. My dog likes tennis balls and his favourite snack are healthy bones for dogs.

sister+ brother

MATYÁŠ FOLPRECHT
&
ANNA FOLPRECHTOVÁ

Hello, we are Matyáš and Anna. When we were little, we liked each other but now we are thirteen and it's different.. we go to same class 7.B

Going to the same class has advantages but it's difficult.

Because we both have different opinions and because we don't have same friends, it's sometimes hard because when you see someone you don't like in your house, it's weird. When I came home there was a friend of my brother whom i really don't like.

We envy the other to what can do. *For exemple when one of us knows more math or physics.*

The advantage of going to the same class is that we can help with our homework..

Another advantage is that if others forget the snack, the other one can bring it.

Having a twin is not bad, whenever you are bored you can come to your twin and annoy.

Book Review

Harry Potter: Certain Hogwarts Professor of Magic

LUKÁŠ RAIS

This Book is a kind o fan-fiction of the book named Harry potter which is very popular so before you want to read this book you have to be sure to read books from the harry potter series. This story is about a certain named Felix, this boy graduates from the School of magic with the highest grades in the history of the school.

But after graduating he wanted to become a professor because he realized how many things he hasn't learned from the library but his application was declined by the Principal of the School. After 3Years of Traveling around the world, his application was finally accepted and he become a professor.

The book is certainly interesting and exciting because he often meets Harry Potter and a lot of fun scenes came to life from this book which I had to laugh about. I read this book on mobile.

About Music

MICHAL
SEKERA

piano

Piano from Latin *claves* = keys. It is a stringed percussion musical instrument (also called a grand piano or formerly *fortepiano*). The grandfather of the piano was the Greek *monochord*, essentially a device for measuring musical intervals. It was a single string stretched across a sounding board, which was divided into different lengths of string, which were then sounded by a mallet called a *plectron*.

violin

The violin is a stringed instrument with four strings tuned in pure fifths: g, d, a, e. It has a deep tradition in European classical music, and most composers have devoted an important part of their works to it. They are the smallest of the violin family, which also includes the viola and the cello. The first modern violin is believed to have been built by Andrea Amati on commission from the Medici family - he was asked to build an instrument that would be suitable for street musicians. Originally, the violin was probably intended to imitate the human voice.

violoncello

The violoncello (colloquially cello) is a stringed instrument with strings tuned in pure fifths: (C, G, d, a), i.e. an octave lower than the viola. The cello is the deepest of the violin family of instruments. These instruments developed in parallel with the so-called viola instruments (derived from the viola da gamba). The first modern cello was made in Cremona in 1572 by Andrea Amati.

Miroslav Sekera

1. How long have you been playing the piano?

I have learned piano and violin since I was 3 years old. So I play the piano for almost 42 years

2. How did you get interested in the piano?

I have liked the sound of the piano very much.

3. Who do you like to play with the most?

I like collaboration with excellent musicians, especially violinists because this is my second favourite instrument :-)

4. What made you start playing music?

I love music. I love good music which we can be found in all styles

5. What kind of composer do you like?

In my opinion, one of the most difficult composers ever is W. A. Mozart. His music sounds very simple but the music is very deep and very clear. No space to make a mistake.

6. How many competitions have you been to?

I have visited several international piano competitions when I was a student. For example Competition in Gaillard in France, J. Brahms Competition in Pörtlach in Austria which I won. The last special prize I received from the Musical society was "Salon de Virtuosi" in New York in 2016.

Anatomy of animals

Dogs 🍖

There are more than 400 breeds of dog in the world.

The tallest dog of the world is Great Dane. A Great Dane called Zeus stood 44 inches (111 cm) from the ground.

Dogs have an awesome sense of smell

Greyhounds can run more 72 km/h

German wolfhounds can run 11-13 km/h

The smallest dog in the world is Chihuahua Miracle Milly. It's height is less than 10 cm.

Wie man einfach Deutsch lernt

Kristýna HLŮŠKOVÁ

Deutsch lernen ist für viele Menschen nicht einfach, weil es eine sehr schwierige Grammatik hat. Es gehört zu den schwierigsten Sprachen der Welt. Ich habe ein paar Tipps für euch, mit welchen Deutsch einfach für sie wird.

1. Ihr könnt mit Apps lernen

Heute gibt's viele Apps für Deutsch lernen. Zum Beispiel:

Der Die Das → Hier können wir den Artikel lernen.

Deutsch lernen → In dieser App sind deutsche Texte (von A1 bis C2 Niveau).

Deutsch hören → Das ist gleich wie "Deutsch lernen" aber hier sind deutsche Videos

Duolingo → Wir können hier Deutsch und viele andere Sprachen lernen. Hier gibt's viele Lektionen von den leichtesten bis zu den schwierigsten.

German LinDuo → LinDuo ist ziemlich gleich wie Duolingo aber LinDuo ist besser nach meiner Meinung.

Grammatik Deutsch → In dieser App sind Übungen (von A1 bis C2 Niveau). Zuerst könnt ihr die Erklärung sehen und dann machen sie die Übung.

Memrise → Ihr könnt hier Wörter und Phrasen lernen, manchmal Grammatik auch.

OkyDoky → Wenn ihr die App öffnet, entdeckt ihr eine Mappe, ihr klickt auf das Land, in dem man die Sprache spricht, die ihr lernen möchtet und du siehst die Grammatik, die Wörter und die Spiele. Das sieht gut aus? Oder nicht?

Readle → Hier sind die deutschen Texte und die Grammatik.

Tobo German → Wenn ihr die Wörter lernen wollt, diese App ist sehr gut. Hier sind Lektionen mit Wörtern und die Spiele mit Wörtern.

2. Ihr könnt Filme auf Deutsch sehen.

Für Deutsch lernen ist es wichtig Verständnis von Videos und Filmen oder die Serien sind gut für das. Zum Beispiel auf Netflix sind viele Filme und viele Serien auf Deutsch oder mit Deutschem Dubbing. Ein guter Film, den meiner Meinung nach jeder sehen sollte, ist die Welle. Aus Serien sind gut zum Beispiel Dark oder Biohackers. Auf YouTube sind viele Videos mit Deutsch auch. Wenn ihr wollt, könnt ihr etwa auf YouTube suchen. Für die Anfänger sind gut nur kleine Dialogen.

3. Ihr könnt auf Deutsch lesen

Im Internet oder in der Bibliothek sind Bücher, die auf Deutsch geschrieben sind. Am besten sind zum Beispiel Bücher mit Spiegeltext (eine Seite auf Deutsch und eine auf Tschechisch).

4. Ihr könnt einen Freund finden, der mit ihnen lernen wird.

Wenn ihr habt einen Freund auf Lernen alles geht besser. Findet ihr einfach jemanden, der mit ihnen Deutsch lernen möchte oder jemanden, der bereits Deutsch kann (z. B. einen Lehrer oder eine Lehrerin).

5. Ihr könnt Sprechen

Um Deutsch zu lernen, muss man gut sprechen lernen. Ihr könnt mit einem Freund, einem Lehrer (eine Lehrerin) oder mit sich selbst sprechen. Probiert ihr es aus und seht ihr, wie Ihr Deutsch besser wird.

6. Ihr könnt schreiben

Schreibt ihr einen Text. Das macht Spaß. Also warum nicht? Schreibt ihr die Texte, ohne den Übersetzer zu benutzen. Ihr könnt über Alles schreiben, was interessiert sich. Es gibt viele Themen. Also probiert ihr es.

Ende

Was denkt ihr jetzt ? Kann man Deutsch einfach lernen? Ich hoffe dass, Ihnen der Artikel gefallen hat. Wenn ihr anfängt, Deutsch zu lernen und Hilfe braucht, könnt ihr zu mir kommen und ich helfe Ihnen. Danke für Lesen.

VOLUNTEERING, BUT HOW?

TERIBEAR

Barbora LINHARTOVÁ

Teribear is a charity run. This event takes place every year in Park Štěpánka in Mladá Boleslav. How can you help? Everyone can register at the Start and run the route. If you don't want to run, you can finish the route by walking. For each kilometer Škoda Auto will pay 20 Kč and you pay 60 Kč we will pay for registration. Raised money is donated to a children's home in Vrchlabí and an institute for infants.

Dům seniorů Mb - MB Retirement Home

Jakub ČERVA

The goal is to respect human rights, freedom and also meet the needs of the users.

If you want to volunteer here you can help them by spending time with the seniors or just keep in touch with them. If you want to help here you shouldn't judge their intellect or talk with them about their diseases. Rules to volunteer here are as follows: you need to take a course with personnel, they will supervise you from time to time and then you need to pass the entrance test. When you come to help, you need to have a clean suit and you will sign the documents that you were there.

1. I think the biggest difference in high school is teachers. In elementary school, all of the teachers remember your name and some things about you but in high school they barely remember your name.

2. I am still in touch with my friends, mostly I am in touch with Kuba Tomek.

3. My favourite teacher is my geography teacher because she is so kind and understanding about tests and homework.

4. I miss my classmates and also teachers. I really miss English lessons with Mrs. Güngör because our English teacher can't pronounce anything right.

5. I really recommend watching films and tv shows in English just with English subtitles.

6. Yes, I'd like to study psychology and become a therapist.

Verča Cyrany

QUESTIONS

What was the biggest difference between elementary school and high school for you? Are you in touch with your friends from Kosmonosy? If yes, with who? Who is your favourite teacher in your new school and why? What do you miss from your school days here and why? Can you give the younger ones some tips to improve their English? As you are in high school now, any plans about your future job?

1. The biggest difference is that we are focused on artistic classes.

2. No, because I'm an introvert.

3. My favourite teacher is the artistic class teacher.

4. I miss Miss Hatice because she is the best English teacher.

5. I think they should focus more on studying.

6. No, I don't have any plans on my future job.
